Dr Norman L Geisler has been called the father of evangelical Christian philosophy. He has written more than one hundred books and taught at universities and top seminaries for some fifty-six years. He was the first president of the Evangelical Philosophical Society and the founder and first president of the International Society of Christian Apologetics. He has spoken or debated in more than two dozen countries and held pastoral/pulpit ministries in four states. Many view him as a cross between Thomas Aquinas and Billy Graham. No one has done more to communicate the modern challenges of the faith to the average Christian, to the church, and to the academy. This volume offers creative and constructive essays from twenty-three contributors, all notable in their own right, who preserve and propagate Dr Geisler's ideas and express appreciation for his influence. Those who know him best say he is true, faithful, and blessed by God.

Uncovering the content, structure, and teachings of the New Testament is a daunting but exciting task. Our world is so different from that of the first century that the dress, travel, vocation, and custom of biblical characters are all foreign to us. Yet it is important to understand the context and content of the New Testament if we are to be faithful followers of Jesus Christ. A popular survey of the New Testament is designed to help ordinary people enrich their understanding of New Testament people and events. It addresses many questions that readers of the Bible may have, such as: Who wrote the books of the New Testament, and to whom were they writing? When were these books written, and why? How can a warning about first-century Gnostics help Christians today? What can today's believers get out of a letter about a slave returning to his master? How can we understand difficult passages in the New Testament? Written in an easy, informal style, this survey is accessible and enjoyable to anyone who wants to better understand the New Testament.

Great thinkers come and go, but if preserved, their writings live on. This is a treasure book like no other. Collected in five volumes are hundreds of essays, some never before published and others hard to find. One of the foremost Christian apologists of our time, Dr Norman L Geisler, is a prolific author, veteran professor, speaker, lecturer, traveler, philosopher, apologist, evangelist, and theologian. To those who ask, "Who is Norman Geisler?" some have suggested, "Imagine a cross between Thomas Aquinas and Billy Graham, and you're not too far off." He has spent his life defending the Christian faith and preparing the next generation of students to carry on. Now, for the first time, you can read through Geisler's most significant essays in chronological order, starting from the 1960s. The collected essays of Dr Norman L Geisler consist of five volumes. Herein, you will find everything from inspiring but thought-provoking works to significant academic journal articles, chapters, debates, and interviews tackling the toughest apologetic, theological, and philosophical problems and controversies. No defender of the faith today should be without this treasure.

Finally, the expertise of leading scholars and apologists of today are collected into one resource. Each contributor provides a helpful bibliography for additional readings. Chapters are arranged in a logical, argumentative order to aid in breaking down intellectual obstacles of faith.

That miracles exist is an important part of the Christian tradition. Yet a brief survey of modern thought reveals a marked prejudice against this notion. Here, Geisler shows how the laws of logic and science speak to the reasonableness of miracles. A dispassionate look at the facts and arguments demands that doubters question their own naturalistic assumptions. Geisler also describes signs, wonders, and power, contrasting what the Bible means by a miracle with bizarre stories of saints, faith healers, and occultists. A continuation of his work begun in *Miracles and Modern Thought*, *Miracles and the Modern Mind* includes extensive revisions and additions.
