tyke tiler is very fond of practical jokes tyke is also fond of danny price who is not too bright and depends a lot on his friends together tyke and danny add up to double trouble especially during their last term at cricklepitt combined school

the elimination of small scale perturbations from observed or predicted height fields forms one of the difficult steps in the numerical prediction of the upper air flow patterns several different methods are compared and a new method introduced whereby the desired smoothing may be achieved by introducing the turbulence term without requiring the preparation of separate smoothing programs the inclusion of the turbulence term is particularly effective in filtering small scale perturbations

the stories we read as children are the ones that stay with us the longest and from the nineteenth century until the 1950s stories about schools held a particular fascination many will remember the goings on at such earnest establishments as tom brown s rugby st dominic s greyfriars the chalet school malory towers and linbury court in the second part of the twentieth century with more liberal social attitudes and the advent of secondary education for all these moral tales lost their appeal and the school story very nearly died out more recently however a new generation of compromised schoolboy and schoolgirl heroes pennington tyke tiler harry potter and millie roads have given it a new and challenging relevance focusing mainly on novels written for young people from morality to mayhem charts the fall and rise of the school story from the grim accounts of victorian times to the magic and mayhem of our own age in doing so it considers how fictional schools not only reflect but sometimes influence real life this captivating study will appeal to those interested in children s literature and education both students and the general reader taking us on a not altogether comfortable trip down memory lane

this book will consist of a coherent collection of recent results on near wall turbulence including theory new experiments dns and modeling with rans les and low order dynamical systems

this series offers a range of plays specially written or adapted for 11 to 14 year olds for easy acting or reading aloud in class many have large casts this book is a dramatization of gene kemp s novel and has ideas for discussion and activities at the end of each episode
